

VINYL STORAGE BAG FOR DOLL CLOTHES

Supplies:

1 pc 8 or 12 gauge vinyl, cut 12" x 24"
14" zipper, vinyl or nylon, not metal
25-30" of binding
Wonder Tape (optional)

Notes: Set a longer stitch length. A Teflon foot is helpful. Use any tricks you have to sew sticky fabric. A piece of tissue paper laid under the vinyl will help you see where to line up the zipper. A Teflon or silicone ironing mat is helpful if you have to press the vinyl (on low heat!)

Step 1 – using Wonder Tape, glue stick or clips, line up one side of the opened zipper along a 12" side of the vinyl, placing the "top" end of the zipper even with the edge of the vinyl. Sew it on.

Step 2 – using Wonder Tape, glue stick or clips, line up the other side of the zipper along the other 12" side of the vinyl and sew it on.

Step 3 – close the zipper (it's on the outside of the bag), adjust the vinyl so the zipper is 1-2" from the top of the bag. Using clips to hold it in place, sew over both ends of the zipper about ¼" from the ends. Cut off the end of the zipper.

Step 4 – sew binding on both sides, finishing ends by tucking them in or satin stitching across each end.
